Eng. Exam

INDEX.

VOL. CXXXVI.

Illustrations.

Names.

A

A.C. Cars, Limited, Motor Car Works, 77
A.E.C. 2-Ton Chassis, 580
Aerostyle Portable Paint Sprayer, 363
Ahrons, E. L., on Short Histories of Famous Firms, 194, 231, 548; (Corrections), 223, 614
  Kitson and Co., Limited, Airedale Foundry, Leeds, 548
  Sharp, Stewart and Co., Limited, Manchester and Glasgow, 194, 231
Albert Ballin, Liner, and Machinery for, 271, 273, 299
Albion 30-cwt. Subsidy Chassis, 608, 610
All-British Wireless Exhibition, 502—*see also* Subjects Index, Wireless
Alley and MacLellan, Limited, Quick-closing Sluice Valves, 651
America, Science and Industry in, Dr. Walter Rosenhain, 271, 298, 312, 330, 358, 384, 412, 440, 468, 494, 522
American Bureau—*see* Subjects Index, Bureau of Standards
American Rivers, Current Retards on, 689
Andrews Apparatus for Classifying Finely Ground Materials, 68, 69
"Arato" Self-tracking Trailer, Richard Garrett and Sons, 608, 609
Armstrong, Sir W. G., Whitworth and Co., Limited, Six-coupled Tank Engines for Bombay, Baroda and Central India Railway, 172
Arms, Twin-screw Motor Tanker, Swan, Hunter and Wigham Richardson, Limited, 485
Arrol, Sir W., and Co., Limited, 100-Ton, Two-crab Cranes for Clydebridge Steel Works, 218 (*Two-page Supplement, August 31st*, 1923)
Ashton, David, and Co., Limited, Electrical Haulage Gear, 235
Asquith, William, Limited, Radial Machine for Drilling Plates and Girders, 340
Aster Engineering Company, Water Level Indicator, 431
Atkinson Uniflow Steam Wagon and Gearbox, 608, 610, 611
Atlantic Transport Liner Minnewaska, Harland and Wolff, Limited, 235
Australia, Lighthouse Apparatus for, 513
Auto-Klean Strainer, 306
Aveling and Porter, Limited, Tar Sprayer and Gritter, Three-wheeled Motor Road Roller, 640

B

BABCOCK and Wilcox "Series" Boiler, 401
Baguley, Limited, Petrol Locomotive and Transmission Gear, 609, 610
Ball, E. Bruce, on Contrivances for Storage and Distribution of Water, 47
Barclay, Andrew, Sons and Co., Limited, Small Locomotive, &c., for Poland, 432
Barford and Perkins Roller, 586
Barton—*see* Manchester
Beardmore and Co., Large Humphrey Pumps for Australia, 673 (*Two-page Supplement, December 21st*, 1923)
Beardmore, 600 B.H.P. Engine, 620
Belfast Power Station, New, 415; (Correction), 459
Bengough, Guy D., and R. May, on the Rapid Corrosion of Condenser Tubes, 7
Beryl, Motor Yacht, S. E. Saunders, Limited, 184
Besson Commercial Seaplane, 346
Bignell Reinforced Concrete Water-jet Pile, 689
Bilton Silent Steam Water Heater, 307
Bonn Tube Bending Machine, Hugh Smith and Co., Limited, 514
Booth, Joseph, and Bros., Limited, Electric Railway Locomotive for Mines, &c., 36
Boulton and Paul, Water Elevator and Cellular Band, 307, 308
Brackett, F. W., and Co., Limited, Force Pump, 339
Bridgeport Brass Company, Electric Casting Shop, 298
Britannia Flow Meter, 540
British Lighting and Ignition Company, Limited, Dynamo and Battery Regulator, 375
British Thomson-Houston, Electric Winding Equipment for Collieries, 118, 126
Brookes and Sears "Generator Comparator," 363
"Browett-Lindley" Four-cylinder Gas Engines for S. Africa, 44, 46, 64; (Letter), 70
Brown, John, and Co., Steam Yacht Restless, 155
Browning Pump, 337; (Correction), 379
Bruce Peebles and Co., Limited, Electrical Equipment for Mine Work, 198
Bruce Peebles and Co., Limited, Guillotine and Sketch Shears, 246, 247
Burmeister and Wain, 1000 H.P. Single-cylinder Diesel Engine, 79
Burrell, Charles, and Sons, Limited, Rivet Heating Furnace, 335

C

CAMBRIDGE and Paul Company, Meter, Alternator Temperature Indicator, Indicator, &c., for Temperature Control Apparatus, 251
Cambuslang—*see* Clydebridge
Cammell Laird Diesel-electric Ship La Playa, 420, 456
Cammell Laird and Co., Limited, Penistone Works, 2, 14, 30, 42, 62, 72 (*Two-page and Four-page Supplements, July 6th*, 1923); (*Two-page Supplement, July 20th*, 1923)
Canadian Paper Mill and its Steam Plant, 206, 207
Carrow Bridge, Norwich, 424, 428, 430
Chance Brothers, Lighthouse Apparatus, 513
Churchill Machine Tool Company, Limited, Locomotive Crank-pin Grinding Machine, 650
Clarke, J. B., Polar Diagrams for Riveted Connections, 639
Clarkson Thimble-tube Boiler, 621
Clayton and Shuttleworth, Limited, Crude Oil Motor Road Roller, 640, 644
Clinker, R. C., Model of Oscillating Valve Circuit, 583
Clyde Marine Oil Engines, Dr. A. L. Mellanby, 120, 620; (Letters), 676
Clydebridge Steel Works, D. Colville and Sons, Limited, 218, 228, 245, 254 (*Two-page Supplement, August 31st*, 1923); (*Two-page Supplement, September 7th*, 1923)
Colville, David, and Sons, Limited—*see* Clydebridge
Commercial Motor Exhibition, 580, 608, 609—*for* Vehicles, *see* Subjects Index, Motors, Commercial
Copenhagen, Reinforced Concrete Seaplane Hangar at, 176, 180
Crowdson, Eric, Velocity of Flow in Pipes, 635
Cronton Colliery, Winding Equipment at, 88

D

DAVY Brothers, Limited, Steam-hydraulic Slab Shears, 220
Davy Brothers, Limited, 36in. Three-high Plate Mill, 218, 245 (*Two Two-page Supplements, August 31st and September 7th*, 1923)
Day, Summers and Co., Limited, Marine Engines, 249
Degory Carburetter, 307
Derby Works, London, Midland and Scottish Railway, 385, 697 (*Two-page Supplement, October 12th*, 1923)
Dodd, K. S., Design of Pontoons, 331
Dorman, W. H., and Co., Limited, Portable Wave-power Transmission Set, 224, 225
Dowson and Mason Gas Plant Company, Limited, 300 H.P. Double-draught Gas Producers, 44, 46, 64; (Letter), 70
Dyke, F. S., The Lethbridge Irrigation Enterprise in Western Canada, 114, 146, 147

E

ELECTRIC Construction Company, Gas-driven Alternators for S. Africa, 44
Electricars, Limited, Refuse Collecting Vehicle, Runabout Tipping Truck, 642
Electro-Mechanical Brake Company, Capstan Controller, Explosion-proof Controller, 252
Endert and Curchin Punching Table, 539
English Electric Company's Ilgner Fly-wheel Converter Set, Switchboards and other Equipment at Clydebridge Works, 246, 247, 254
English Electric Company's Winding Equipment for Collieries, 88, 116, 117
Ennis Mechanical Manipulating Table, 246 (*Two-page Supplement, September 7th*, 1923)
Esquimalt Graving Dock, B.C., 530, 532

F

FAIR, Walter D., and Co., Oil Motor, 309
Faraday, Siemens Cable Ship, Palmer's Shipbuilding and Iron Company, Limited, 98, 106
Fereday-Palmer Stress Indicator, 68
Ferguson, Pailin, Limited, Large Three-phase Oil Circuit Breaker, 200
Ferguson, Pailin, Limited, Mining Switchgear, 316, 317
Flying Cloud, Motor Yacht, 50, 51
Forward, E. A., Links in the History of the Locomotive, 638, 661
Foster, William, and Co., Limited, Stack Feeder, 17, 18
Fowler Concrete Mixer, 584
French Midi Railway Electrification, Monsieur A. Bachellery, 588, 589, 595; (Letter), 614

G

GALLOWAYS, Limited, Multi-flow Steam Superheaters, 376
Gardner Cold-starting Heavy-oil Engine, 276
Garrett, Richard, and Sons, Self-tracking Trailer "Arato," 608, 609
General Electric Company's High-tension Interconnector, 340
Gibson, Professor A. H., and H. W. Baker on Exhaust Valve and Cylinder Head Temperatures in High-speed Petrol Engines, 663, 664, 675, 700
Gill Propeller Company, Electrically Propelled Unit for Canal Barge, 252, 394
Gill Shrouded Propeller, 224
Gleniffer Paraffin Motors and Lubricating System, 308, 309
Godfrey Oxy-acetylene Cutting Machine, 336
Great Western Railway Four-cylinder Express Engine, Caerphilly Castle, 197, 202

H

HADFIELD, Sir Robert, on History and Progress of Metallurgical Science, 474, 510, 536, 552, 578
Hall Three-aspect Day Colour-light Signals, 391
Hamburg-American Liner Albert Ballin, 271, 273, 299
Harland and Wolff's Atlantic Transport Liner, Minnewaska, 235
Harvey, G. and A., Limited, 32in. Surfacing and Screw-cutting Break Lathe, and Old Break Lathe, 342, 348
Harworth Main Colliery and Hilton Collieries, Special Electric Winding Plant for, Metropolitan-Vickers Electrical Company, Limited, 359, 368
Heenan and Froude's Endless Rope Haulage Plant, Electric, 117
Henderson, A. C. F., on the Subdivision of Large Passenger Steamers, 261
Henry Cort, Tablet in Memory of, 319
Hepburn, Henry A., Depression Effect in Nozzle Flow, 691
Herbert, Alfred, Limited, Oxytome Metal-cutting Machine, 404
Herbert, Edward G., New Type Hacksaw Blade, 431
Herbert Pendulum Hardness Tester, Mathematical Theory of, Wm. J. Walker, 244
Hesco, Limited, Portable Electric Charging Plant, 209
Hollo Four-wheel Driving and Steering Motor Car, 606, 667, 668, 670
Humphrey Pumps, Large, for Australia, 673 (*Two-page Supplement, December 21st*, 1923)
Huntington Nickel Rolling Mill, 330
Hydraulic Engineering Company, Limited, Mangnall-Irving Thrust Boring Machine, 321

I

INDIAN Railway, Six-coupled Tank Engines for, Sir W. G. Armstrong, Whitworth and Co., Limited, 172
Inglis Magnetic Lifting Beam, 246, 247
Institution of Civil Engineers, Conversazione, 68
Ivatt, Henry Alfred (Portrait), 481

J

JACOBUS, D. S., High-pressure Steam Boilers 401
Johns, A. W., on Ship Form and Steering, 551, 576
Johnson-Boving Control Water Valve, 47
Johore Causeway, 537 (*Two-page Supplement, November 16th*, 1923)

K

KARRIER Motors, Limited, 25-Cwt. Chassis, 580
Kent, George, Limited, Coal Meter, 226
Kitchen and Wade, 30in. Drilling, Tapping and Studding Machine, 210
Kitson and Co., Limited, Airedale Foundry, Leeds, Old Punching and Shearing Machine, 548—Locomotives, for List of, *see* Subjects Index, Locomotives

L

LA PLAYA, Diesel-electric Fruit-carrying Ship, Cammell Laird and Co., Limited, 420, 456
Lady Clare II., Small Motor Cruiser, Norman Hart and Barham, 568
Lake and Elliot, Novel Petrol Locomotive, 145
Lanchester Six-cylinder Motor Car, 469
Lansing Equipment Company, Electric Truck with Electric Jib Crane, 183
Lavaud Pipe Casting Machine, 104
Lee, Howl and Co., Limited, High-lift Ram Pump, 538
Lethbridge Irrigation Enterprise in Western Canada, F. S. Dyke, 114, 146, 147
Leyland Motors' 10 H.P. Trojan Vehicle, 580
Lightfoot Brothers' Electric Heating System, 614
Linton Lock Hydro-electric Power Station, York, 148, 149
Lister, R. A., and Co., 2½ H.P. Petrol Engine, 37
London, Midland and Scottish Railway, Building a Railway Coach, 385 (*Two-page Supplement, October 12th*, 1923)
  Mass Production of Railway Wagons, 697
London, Midland and Scottish Railway Eight-coupled Tank Engine, 476
London, Port of, Improvements, 130; (Letter), 513

M

MAKWAR Cement Works, Sudan, 447
Manchester Corporation Power Station at Barton, 391, 396

Manchester, Reinforced Concrete Warehouse at, 322
Mangnall-Irving Thrust Boring Machine, 321
Marconi International Marine Company, Limited, Wireless Beam Receiver and Aerial, Wireless Lifeboat Equipment, 277, 278
Marshall, Sons and Co., All-steel Thrashing Machine, 20, 38
Marshall Tandem Steam Roller, 8-Ton, 584, 585
Mellanby, Dr. A. L., on Clyde Marine Oil Engines, 120, 620; (Letters), 676
Mellanby Exhaust Gas Boiler, 621
Mersey, Proposed Tunnel Under the River, 362
Metropolitan-Vickers Electrical Company's Winding System for Collieries, 88, 359, 368
Metropolitan-Vickers Electrical Contactor Control Cubicle, 337; Ships' Winch, 337
Michell Oil Deflector, 307
Midland Dynamo and Motor Repairs Company, Limited, Quickway Dynamo Coil-winding Machine, 309
Millwall Engineering Company, Limited, Pipe Bends, 460
Mooltan, Peninsular and Oriental Liner, 349
Morgan-Sahlin Gas Producers, 30
Motorailer Transport Company, Limited, New Device for Road or Rail Traction, 402
Mox Cold Starter, 306
Muller, W. J., on Mechanical Stokers on Marine Water-tube Boilers, 279
Mumford, A. G., Limited, Fuel Oil Pump, Electrically Driven, 432
Musgrave "Radojet" Air Pump, 364

N

NETHERLAND Shipbuilding Company, Shipyard at Amsterdam, 275, 282
"Never-Stop" Train System, Railway at Southend, 94, 95
New Brighton 60ft. Motor Lifeboat, 320
Newcastle, Royal Show at, 17, 34
North British Double-acting Two-cycle Engine, 121, 621
North-Eastern Marine Engineering Company, Limited, Quadruple-expansion Marine Engine, 277
Nuttall Pneumatic Road Wheel, 135

O

OLYMPIA, Commercial Motors at, 580, 608, 609—*for* Vehicles, *see* Subjects Index, Motors, Commercial
Olympia, Motor Cars at, 469, 496, 506, 528—*for* Cars, *see* Subjects Index, Motor Cars
Ord and Maddison Tar-macadam Mixer, 623

P

PALMER'S Shipbuilding and Iron Company's Cable Ship Faraday, 98, 106
Paris-Orleans Railway Tank Engines, 236
Parker, Frederick, Multiple Stone-drying and Mixing Plant, 641
"Parry" Boiler Tube Cleaning Blower, 350
Parsons Marine Set and Lighting Set, 250
Peninsular and Oriental Liner, Mooltan, 349
Penistone Works of Cammell Laird and Company, Limited, 2, 14, 32, 42, 62, 72 (*Two-page and Four-page Supplements, July 6th*, 1923) (*Two-page Supplement, July 20th*, 1923)
Petrie, Telford, on Varying Specific Heats and Gas Engine Mixtures, 361
Pickles, John, and Son, Limited, Machine for Cross-cutting and Rounding Timber, 236
Public Works and Transport Exhibition, 584, 623, 640, 644

R

RADIO Communication Company, Limited, Wireless Set for Lifeboats, 251
Ransome Concrete or Clay Moulding Machine, Ransome Tar and Bituminous Macadam Plant, 624
Ransome Cutter-tracker, 388
Ransome High-speed Flooring and Matchboarding Machine, 442, 444
Ransome, Stafford, on High-speed Rotary Planing, 388, 413, 452
Ransomes and Rapier, Large Bridge-erecting Cranes for India, 566
Ransomes, Sims and Jefferies 6-Ton Steam Wagon, 611, 612
Raritan Copper Works, Perth Amboy, Furnaces, 299, 312
Ravier System of Sheet Piling, 132
Reavell-Aster Portable Air Compressing Plant, 338, 339
Reavell Portable Compressor, 624, 625
Record Solid Injection Engine, 310, 311
Reno Marine Salvage System, 471, 478 (*Two-page Supplement, November 2nd*, 1923)
Revalco, Limited, Wireless Valve Repairing Works, 648, 649
Richards, Geo., and Co., Limited, Crank Pin Turning Machine, 460
Richards Type Boring Mills, Battery of, 4, 5
Robey and Co., Limited, High-pressure Air Valve, Regrinding Apparatus for Full-way Valve, &c., 225
Robey Feed-water Filter, 226
Robinson Cutter-tracking Apparatus, 388
Robinson Electrical Sharpener, 389
Robinson, T., and Son, Limited, High-speed Hard Wood Planer and Automatic Feeding-in Table, 442, 443, 444
Robinson, Thomas, and Sons, Limited, Wood Moulding and Planing Machine, 34, 35
Rosenhain, Dr. Walter, on Science and Industry in America, 271, 298, 312, 330, 358, 384, 412, 440, 468, 494, 522
Royal Show at Newcastle, 17, 34
Ruston and Hornsby, 165 B.H.P. Cold Starting Engine, 308
Ruston and Hornsby, 8-Ton Tandem Motor Road Roller, 623

S

ST. JAMES'S Park and Other London Lakes, 60, 92, 93
Sal Log for Ships, Henry Hughes and Son, Limited, 365
Sandberg Machine for Sorbitic Treatment of Tires, 3, 4,
Sandycroft, Limited, Cascade Motor, Driving Gear and Air Compressor, 286
Saunders-Clarkson 5 B.H.P. Two-stroke Inboard Motor, 184
Saunderson Tractor and Implement Company, Farmer's Light-weight Tractor, Engine and Gear-box, 35
Scammell Lorries, Limited, Six-wheeled Tipping Lorry and Turntable, 611, 612
Scemia-Renault Rail Car, 652
Schneider-Diesel Oil Engines, Recent, 152, 156, 157
Scott, E. Kilburn, Manufacture of Ferro-Vanadium by Electric Furnace, 636
Scott, Laurence, and Co., Limited, Electrical Steering Gear, 278
Scott-Still Marine Oil Engine, 556, 592
Scovill Manufacturing Company, Chemistry and Test Building, 298
Seamless Steel Motor Lifeboat, 250, 251
Seguin, Marc, and the Multitubular Boiler, 638, 661, 662
Sentinel Wagon Works, Super-Sentinel Steam Wagons, 19, 20
Sentinel Wagon Works, Super-Sentinel Six-wheeled Steam Lorry, Steam Wagon and Steam Tractor, 612
Sharp, Stewart and Co., Limited, Works, Manchester and Glasgow, 194, 231
Shipping, Engineering and Machinery Exhibition, 224, 249, 276, 335
Short Brothers Works at Rochester, Mass Production of Omnibus Bodies, 102 (*Two-page Supplement, July 27th*, 1923)
Siemens Brothers, Three-valve Wireless Receiver and Continuous-wave Transmitting Set, 364, 365
Simar Rototillers' Roto-tine Tilling Machine, 17
South Africa, Gas-driven Alternators for, 44, 46, 64
Southend, "Never-Stop" Railway at, 94, 95
"Sperigyro" Ship Stabiliser and Automatic Helmsman, 122, 249
Sperry Searchlight, 249
Sprecher and Schuh, Switchgear, Line-sectioning Switch, Transformer Cabin, &c., 276, 277
Stanton Spun Iron Pipe, 104
Steinmetz, Dr. S. P. (Portrait), 482
"Strong Arm" Coal Getter, Pneumatic, 36
Stuart Turner Electric Lighting Set, 336
Sugden Marine Type Uptake Superheater for Scotch Marine Boilers, 134
Sunbeam Six-cylinder Motor Car, 469
Swan, Hunter and Wigham Richardson, Twin-screw Motor Tanker Arnus, 485
Swedish Battleship Drottning-Victoria, 76
Swedish Battleship Sverige's Guns, 76

T

TANGENT Tool and Engineering Company, 250-Ton Hydraulic Press and Four-cylinder Radial Pump, 338
Thames Water, Purification Plant for, United Water Softeners, Limited, 168 (*Two-page Supplement, August 17th*, 1923)
Thornycroft, J. I., and Co., Limited, Motor Boats, Marine Engines, &c., at the Shipping Exhibition, 224
Thornycroft Six-wheeled Lorry and Four-cylinder 50 H.P. Engine and Transmission Gear, 581, 582
Trist, Ronald, and Co., Limited, The Hilo Boiler Water Alarm, 363
Trojan Vehicle, Leyland Motors, Limited, 580
Turner Boarding and Softening Machine, and Clamp Staking Machine, 449, 452
Tutton, Henry R., Portland Cement Factory in the Sudan, 447

U

UNITED Automobile Works, Triangel Long-frame Six-wheeled Vehicle, 611, 613
United States Bureau of Standards, Washington, 494—*see also* Subjects Index, Bureau, &c.
United Water Softeners, Limited, Purification Plant for Thames Water, 168

V

VERMOT Shunting Tractor, 687, 694

W

WALKER, Wm. J., on the Herbert Pendulum Hardness Tester, 244
Wallsend Fuel Burner Applied to Boiler Furnace, 366
Ward-Leonard Electric Winder for Mines, 260, 261
Watson Type Lifeboat Flooding Experiments, 223
Weir, James G., on Boiler Feed Water Circuits in Power Stations, 372
Westinghouse Three-aspect Day Colour-light Signals, 390
White City, Wireless Exhibition at, 502, 524
White, J. S., and Co., Limited, Electromersible Pump, 337
White, J. S., and Co., Limited, Solid Injection Oil Engine, 339
Wild-Barfield Electrically Heated Furnaces, 159
Williams-Janney Variable Speed Gear, Adapted, 441
Wilson Leather Rolling Machines, 449, 452
Wilson Leather Scouring Machine, 449
Winget, Limited, Semi-spiral Concrete Mixer, 586
Worthington-Simpson, Limited, 1200-Watt Combined Lighting and Power Set, 18, 19

Y

YARROWS Limited, Motor Princess, Diesel-engined, Ferry Boat, for Motor Cars, 80
York, City of, Hydro-electric Power Station at Linton Lock, 148, 149

Z

ZEPPELIN Passenger Airship LZ. 126, 604, 616 (*Two-page Supplement, December 7th*, 1923)

Subjects.

A

AIR-COMPRESSING Plant, Portable, Reavell-Aster, 338, 339
Air Pump—*see* Pump
Airship, Zeppelin Passenger, LZ. 126, 604, 616 (*Two-page Supplement, December 7th*, 1923)
Armour-piercing Projectiles, The Hadfield, Impact Effect of, 474

B

BARGES—*see* Ships
Boiler, Clarkson Thimble-tube, also attached to Vickers-Petter Engine, 621
Boiler, Exhaust Gas, Dr. A. L. Mellanby, 621
Boiler, Feed-water Circuits in Power Stations, James G. Weir, 372
Boiler-house and Equipment at Belfast Power Station, 415, 417
Boiler-house Equipment for Canadian Paper Mill, 206, 207
Boiler-house and Plant for the Barton Power-house, 392, 393
Boiler, Marc Seguin's Multi-tubular, 638, 661
Boiler, "Series," Babcock and Wilcox, 401
Boiler Tube Cleaning Blower, C. P. Parry, Limited, 350
Boiler Water Alarm, The Hilo, Ronald Trist and Co., Limited, 363
Boilers, High-pressure Steam, D. S. Jacobus, 401
Boring Mills—*see* Machine Tools
Brakes, Continuous, for Goods Trains, 192; (Correction), 230
Breaking Up Large Masses of Steel, 530
Bridge, Bascule, over the Wensum, Norwich, 424, 428, 430
Building—*see* Railway
Bureau of Standards, American, and Machines, &c., Connected Therewith, 494, 522
Experimental Foundry, 522
Glass, Samples Made at the Bureau of Standards, 496
Heat Treatment Room, 522
Papermaking Machine, 494
Rolling Mill, 523
Testing Machine, 10,000,000 lb., 495
Wind Tunnel, 494

C

CABLE Ship—*see* Ships
Capstan Controller and Explosion-proof Controller, Electro-Mechanical Brake Company, Limited, 252
Carburetter, Degory Carburators, 307
Casting Plant for Spun Iron Pipe, Stanton Ironworks Company, Limited, 104
Casting Shop, Electric, Bridgeport Brass Company, 298
Causeway, Johore, 537 (*Two-page Supplement, November 16th*, 1923)
Cement—*see* Portland
Chemistry and Test Building, Scovill Manufacturing Company, 298
Coach, Railway—*see* Railway
Coal Getter, Pneumatic, "Strong Arm," 36
Coal Meter, George Kent, Limited, 226
Coal Receiving and Conveying at Belfast Power Station, 415, 417
Compressor, Portable, Reavell and Co., Limited, 625
Concrete or Clay Moulding Machine, Ransome Machinery Company, Limited, 624
Concrete Mixer, John Fowler and Co. (Leeds), Limited, 584
Concrete Mixer, Semi-spiral, Winget, Limited, 586
Concrete Piling—*see* Sheet
Continuous Brakes for Goods Trains, 192; (Correction), 230
Copper Furnaces, Raritan, at Perth Amboy, 299, 312
Corrosion, Rapid, of Condenser Tubes, Guy D. Bengough and R. May, 7
Crane, Electric Jib, Fitted to Electric Truck, Lansing Equipment Company, 183
Crane, 100-Ton Overhead Two-crab, Sir W. Arrol and Co., Limited, 218 (*Two-page Supplement, August 31st*, 1923)
Cranes, Large Bridge-erecting, for India, Ransomes and Rapier, 566
Cranes, Various, at Cammell Laird's Penistone Works, 2, 14, 30 (*Two-page and Four-page Supplements, July 6th*, 1923)
Cross-cutting Deals for Railway Wagon Sides, Machine for, John Pickles and Son, Limited, 236
Current Retards on American Rivers, 689
Cutter-tracker, The Ransome, 388—*see also* Machine Tools, High-speed Planing
Cutter-tracking Apparatus, The Robinson, 388

D

DEPRESSION Effect in Nozzle Flow, Henry A. Hepburn, 691
Diesel Engines—*see* Engines
Dock, Government Graving, at Esquimalt, British Columbia, 530, 532
Drilling Machines—*see* Machine Tools

E

ELECTRICAL MATTERS:

Barton Power Station of the Manchester Corporation, 391, 396
Battery Charging System, British Lighting and Ignition Company, Limited, 375
Belfast New Power Station, 415; (Correction), 459
Brass Company's, Bridgeport, Electric Casting Shop, 298
Cascade Motor, Driving Gear and Air Compressor, Sandycroft, Limited, 286
Charging Electric Batteries, Portable Plant for, Hesco, Limited, 209
Circuit Breaker, 10,000-Ampère, Three-phase Oil, Ferguson, Pailin, Limited, 200
City of York Hydro-electric Power Station, 148, 149
Contactor Control Cubicle, Metropolitan-Vickers Electrical Company, Limited, 337
Direct-current Winder for Mines, Ward Leonard, 260, 261
Dynamo Coil-winding Machine, Midland Dynamo and Motor Repairs Company, Limited, 309
Ferro-vanadium, Manufacture of, by Electric Furnace, E. Kilburn Scott, 636
Gas-driven Alternators for South Africa, Electric Construction Company, Limited, 44, 64; (Letter), 70
Generator, 12,000-Volt Direct-current, 568
Haulage Gear in Mines, D. Ashton and Co., Limited, 235
Interconnector, High-tension, General Electric Company, 340
Kromhout Lighting Set, 249, 250
Lightfoot Brothers' Electric Heating System, 614
Lighting and Power Set, 1200-Watt Combined, Worthington-Simpson, Limited, 18, 19
Midi Railway of France, 1500-Volt Sub-station on, 1500-Volt 50-Cycle Rotary Converter, 588, 595, 596
Mill Power-house and Equipment at Clydebridge Works, English Electric Company, 247, 254
Mines, Electrical Equipment, Bruce Peebles and Co., Limited, 198
Mines, Electricity in, 88, 116, 117, 126, 142, 166, 198, 234, 259, 286, 316, 359, 368
Mining Switchgear, Ferguson, Pailin, Limited, 316, 317
Motor, 19,000 H.P. for 34in. Rolling Mill, Electrical Equipment and Sub-station, at Penistone Works, 62, 72 (*Two-page Supplement, July 20th*, 1923)
Motors, Armature, &c., of the Diesel-electric Ship La Playa, 420, 456
Motors for Use in Collieries—*see* Mines, Electricity in
Oil Switches, Switchboard, 27,500-Kilowatt Turbo-alternator, &c., for Power-house at Barton, 394, 396
Oscillating Valve Circuit Model, R. C. Clinker, 583
Paraffin Two-cylinder Lighting Set, A. G. Mumford, Limited, 158
Parsons Lighting Set, 250
Propeller for Ships—*see* Ships
Radiant Heat Electric Furnace, Wild-Barfield, Automatic Electric Furnaces, Limited, 159
Rotary Converter, Exciters, Switchboards, &c.—*see* Mill Power-house, &c.
Stuart Turner Lighting Set, 336
Switchboard of the Flying Cloud, 50, 52
Switchgear, Transformer Cabin, &c., Sprecher and Schuh, 276, 277
Truck, Electric, with Electric Jib Crane, Lansing Equipment Company, 183
Winding Equipment in Cronton Colliery and No. 1 Pit, Treharris, 88
Staveley "Do Well" Collieries and Powell Duffryn Collieries, 118, 126

ENGINES AND MOTORS:

Beardmore 600 B.H.P. Engine, 620
British Kromhout 100 H.P. Marine Engine, Day, Summers and Co., Limited, 249
Camellaird-Fullagar Engines for the Diesel-electric Ship La Playa, 420, 456
Clyde Marine Oil Engines, Dr. A. L. Mellanby, 120, 620; (Letters), 676
Cold Starter, The Mox, 306
Cold-starting Heavy-oil Engine, L. Gardner and Sons, Limited, 276
Exhaust Valve and Cylinder Head Temperatures in High-speed Petrol Engines, Professor A. H. Gibson and H. W. Baker, 663, 664, 675, 709
Gas Engines for South Africa, "Browett-Lindley," 44, 46, 64; (Letter), 70
Marine and Stationary Engines at the Shipping, Engineering and Machinery Exhibition, John I. Thornycroft and Co., Limited, 224
Neptune, Two-cycle 1400 I.H.P. Marine Oil Engine, 485, 486
North British Double-acting Two-stroke Engine, 121, 621
Paraffin Marine Motor, 24–28 H.P., Gleniffer Motors, Limited, 308, 309
Paraffin Oil Engine Driven Lighting Set, A. G. Mumford, Limited, 158
Parsons Paraffin Marine Sets, 250
Petrol Engine, 24 H.P., R. A. Lister and Co., Limited, 37
Quadruple-expansion Marine Engine, North-Eastern Marine Engineering Company, Limited, 277
Record Solid Injection Engine, 310, 311
Ruston and Hornsby, 165 B.H.P. Cold Starting Engine, 308
Ruston-Hornsby Motor Car Engine, 529

ENGINES AND MOTORS (*continued*):
Saunders-Clarkson 5 B.H.P. Two-stroke Inboard Motor, 184
Schneider Marine Diesel 1500 B.H.P. Engine, Cargo Boat Type, 152, 156, 157
Schneider 1500 B.H.P. Two-stroke Cycle Engines for French Submarine, 152, 157, 158
Scott-Still Marine Oil Engine, 556, 592
Single-cylinder Diesel Engine, 1000 H.P. Burmeister and Wain, 79
Six-cylinder Engine, Sunbeam 20–60 H.P. Car, 471
Six-cylinder Lanchester Car, 21 H.P. Engine, 469
Solid-injection Oil Engine, J. S. White and Co., 339
Thornycroft Four-cylinder 50 H.P. Engine, 581, 582
Trojan 10 H.P. Motor Engine, 580
Varying Specific Heats and Gas Engine Mixtures, Telford Petrie, 361

EXHAUST Valve, &c.—*see* Engines

EXHIBITIONS:
Commercial Motor Exhibition, 580, 608, 609—*for* Vehicles, *see* Motors, Commercial
Motor Car Show at Olympia, 469, 496, 506, 528—*for* Cars, *see* Motor Cars
Public Works and Transport Exhibition, 584, 623, 640, 644—*for* Exhibits, *see* Various Headings
Royal Show at Newcastle, 17, 34
Shipping, Engineering and Machinery Exhibition, 224, 249, 276, 306, 335, 363
Shoe and Leather Fair, 449, 452
Wireless Exhibition, 502, 524, 553—*for* Details, *see* Wireless

EXPERIMENTAL Researches—*see* Ships

F

FACTORY, Portland Cement, in the Sudan, Henry T. E. Tutton, 447
Fair—*see* Exhibitions

Histories, Short, of Famous Firms, E. L. Ahrons, 194, 231, 548; (Letter), 223; (Correction), 614
History of the Locomotive, Links in the, E. A. Forward, 638, 661
Seguin, Marc, and the Multi-tubular Boiler, 638, 661
History and Progress of Metallurgical Science, Sir Robert Hadfield, 474, 510, 536, 552, 578
Portraits, &c., Included:—
Boulton, Matthew, F.R.S. (1728–1809), 511
Dud Dudley, Monument at Worcester, 475
Gore, Dr. G., F.R.S. (1826–1908), 512
Legend of Metallurgy, 579
Lodge, Sir Oliver, F.R.S., 536
Murdock, William (1754–1839), 510
Papin, Denis, F.R.S. (1647–1714), 475
Percy, Dr. John, F.R.S. (1817–1889), 512
Priestley, Joseph, F.R.S. (1733–1804), and House and Laboratory, 511
Robertson, C. Grant, M.A., C.V.O., 536
Thomas Turner, Professor, 552
Watt, James (1736–1819), 510
Hydraulic Press, 250-Ton Open-sided, Tangent Tool and Engineering Company, Limited, 338
Hydro-electric Power Station, City of York, 148, 149

I

INDICATOR, Distant Reading Water Level, Aster Engineering Company, Limited, 431
Indicators, Temperature, &c., Cambridge and Paul Instrument Company, Limited, 251
Irrigation Enterprise, The Lethbridge, in Western Canada, F. S. Dyke, 114, 146, 147

L

LAKES, London; The St. James's Park and Other, 60, 61, 62, 92, 93
Lathes—*see* Machine Tools
Lead Mines, Ore-loading Machines for, 208
Leather Boarding and Softening Machine and Clamp Staking Machine, Turner Tanning Machinery Company, Limited, 449, 452
Leather Rolling Machines and Double Band Scouring Machine, Edward Wilson and Son, Limited, 449, 452
Legend of Metallurgy, 579
Level, Remote, Indicator, Aster Engineering Company, Limited, 431
Lifeboat—*see* Ships
Lighthouse Apparatus for Australia, Chance Brothers and Co., Limited, 513
Lighting Set—*see also* Electrical Matters

LOCOMOTIVES:
Caerphilly Castle, Four-cylinder Express, Great Western Railway, 197, 202
Eight-coupled Tank, London, Midland and Scottish Railway, 476
Electric, Railway, for Quarries, Mines, &c., Joseph Booth and Bros., Limited, 36
Feed Heater for, Small, 404
Links in the History of the, E. A. Forward, 638, 661
Locomotives and Motor Coaches for French Midi Railway, 588, 595, 596
Paris-Orleans Railway, Eight-coupled Tank, 236
Petrol, Novel, Lake and Elliot, 145
Petrol and Transmission Gear, Baguley, Limited, 609, 610
Polish Timber Company, Small, for, 432
Short Histories of Famous Firms, E. L. Ahrons, Locomotives included in:
Kitson and Co., Limited: Single-driver Engine, Midland Railway, 1845; Passenger Engine, Madrid and Zaragoza Railway, 1858–9, 548; Bogie Engine, Copiapo and Caldera Railway, Chile, 1860, 548; Single-driver Engine, Great Northern Railway, 1860–1, 549; Single-driver "Mail" Engine, South-Eastern Railway; Six-coupled Goods Engine, Midland Railway, 1866–8; Passenger Engine, Tambor and Saratov Railway, 1860–72, 549; Tank Engine, Taff Vale Railway, 1884; Metre-gauge Compound Engine, North-West Argentine Railway; Articulated Engine, Chilian Nitrate and Railway Company, 1894, 550
Sharp, Stewart and Co., Limited, 1806: The Experiment, 1833, 194, 195; The Atlas, Circa 1838, 195; Standard Single-driver Engine, 1847–8, 195; Bloomer, London and North-Western Railway Express, 196; Midland Railway Express Engine, 1853–4, 196; Midland Railway Goods Engine, 1854–5, 196; Mauritius Railways, Eight-coupled Tank Engine, 1867, 231; Japanese Railways, Passenger Engine, 1871; London, Chatham and Dover Railway, Four-coupled Express Engine, 1873, 231; Midland Railway Express Passenger Engine, 1874; Barry Railway, Eight-coupled Goods Engine, 1886, 231; Paris Exhibition, 1878, Four-coupled Express Engine (Paris-Orleans Railway), 1878, 232
(Corrections), 223, 614
Six-coupled Tank, for India, Sir W. G. Armstrong, Whitworth and Co., Limited, 172

IMPACT Effect on Railway Bridges, 1
Imperial Airship Scheme, 113
Imperial Air Transport Company, 659
Imperial College and Dominion Students, 631
Industrial and Commercial Education, 29
Industrial Welfare Society, 547
Institute of Transport, 357
Institution of Engineering Inspection, 547
Instruction of Oil Fuel Stokers, 683
International Seaplane Race, 329, 357
International Sleeping Car Company, 357
Italian Selling Organisation, Proposed, 603

J

JAPANESE Earthquake, 297
Joint Industrial Councils, 113
"Journal of Scientific Instruments," 411

K

KEEPING Work in the Country, 243
Kidderminster Sugar Factory, 631; (Letter), 702

L

LAMBETH Bridge, 493
Largest Motor Ship, 575
Largest P. and O. Liner, 357
Light Aeroplane Competitions, 383, 411
Light Cruiser Programme, 547
Light Cruisers, New, 467
Littleton Pumping Station, 383
Locomotive Connecting-rods, 467
Locomotive Running Repairs, 603
Locomotive Trade and Railway Amalgamations, 467
L.C.C. Automatic Telephone Exchange, 269
L.C.C. Tramway Schemes, Some More, 493
London–Liverpool Motor Way, Proposed, 297
London, Midland and Scottish Railway Orders, 659
London, Midland and Scottish Proposals 439
L. and N.E Railway New Works on, 411
London Tube Railway Developments, 467
London's Traffic Accidents, 141
London's Water Supply, 659
London Underground Station Improvements, 165
Lord Shaughnessy, The Late, 631
Lost Vessels, 269

M

MAGNETIC Testing Station, New, 191, 269
Making Money, 243
Maltby Main Colliery, Reopening, 269
Manchester Ship Canal, Deepening the, 575
"Marie Louise" Class of Ship, 329
Marine Aircraft for Cross-Channel Work, 165
Marine Motors, Small, 297
Material for Gas Holders, 521
Menai Bridge, Proposal to Rebuild, 411, 683

Metropolitan Water Board Contract, 113
Midlands Canal Improvements, 191
375 Miles an Hour, 659
Miners' Wages, 329
Motor Vehicle Research, 59

N

NATIONAL Air Company, 603
National Profit-sharing, 439; (Letter), 484
Nations' Armaments, 467
Naval Construction, New Director of, 659
Naval Torpedo School, 357
"Never-Stop" Railway at Southend, 297
New Chief Engineers, Great Western Railway, 547
Niger Valley Irrigation, 1
Non-stop Railway Runs, 29
North and West Motor Way, Proposed, 439

O

OIL-ELECTRIC Station, A Large 329
Oil Fuel at Sea, Minor Advantages of, 493
Orkney Fuel Factory, 439
Otira Tunnel, 141

P

PAYMENT by Results, 191; (Letters), 223, 483, 513, 538, 555
Peninsular Locomotive Company, 493, 575
Petrol Research, 575
Picking Up Mails in Flight, 217
Port of Paris, 329
Professor Andrew Gray, 29
Profit-sharing in the Engineering Trades, 383
Proposed London–Liverpool Motor Way, 29
Pulverised Coal, 243

R

RAIL, Road and Canal, 411

Year's Electricity Output, 243

Paragraphs.

A

AERONAUTICS:
Air Demonstration to Dominion Representatives at Croydon Aerodrome, 559
Monoplane, Portion Picked Up from the Sea near Hythe, 669
New York and San Francisco, Projected Air Mail Continuous Service, 175
Propeller *v.* Jet System of Propulsion, E. Buckingham, 175
R 38 Memorial Prize, 466
ALEXANDRIA and Suez Ports, Improvement and Recommendations, 151
Allen-Liversidge, Limited, Staff Dinner, 543
Aluminium Chloride, Properties and Uses of, 311
American Government Purchasing Departments' Disuse of the Metric System, 395
Antimony from Hunan, Large Export Trade, 201
Argentina, Oilfield Production, 505

ASSOCIATIONS, INSTITUTIONS & SOCIETIES:
ASSOCIATION OF CONSULTING ENGINEERS:
Annual Dinner, 567
INSTITUTE, IRON AND STEEL:
Election of President, 25
INSTITUTE OF METALS:
Autumn Meeting, 25, 210
Use of Non-ferrous Metals in Engineering, Second Annual Autumn Lecture, Sir Henry Fowler, 25, 210
Birmingham Section:
X-rays and Crystal Structure, Lecture, Dr. H. B. Keene, 587
London Local Section:
American Non-ferrous Metallurgy, Lecture by Dr. Rosenhain, 484
INSTITUTE OF PHYSICS:
Research in Manufacture, Sir J. J. Thomson, 41
INSTITUTE OF TRANSPORT:
Awards of Medals and Premium, 325
Transport Adventure in Persia, Lecture by Major T. Salkield, 505
INSTITUTION OF AUTOMOBILE ENGINEERS:
Address of New Offices, 112
Crompton Medal Award for Paper, 559
Fourth Annual Dinner, 459
Motor Car Insurance Examination by the Institution, 175
Petrol-electric Propulsion: Its Advantage as Regards Economy, L. Murphy, 615
Special Conference at the Shipping Exhibition, 290
Utility Prize Award, 402
INSTITUTION OF CHEMICAL ENGINEERS:
Industrial Oxygen, T. Campbell Finlayson, Reprint of Paper on Sale, 356
INSTITUTION OF CIVIL ENGINEERS:
Awards for Papers, 466
Vernon Harcourt Lectures on "River Training and Maintenance," R. F. Hindmarsh, 367
Yarrow Scholarship, Applications Invited, 175
INSTITUTION OF ELECTRICAL ENGINEERS:
Annual Conversazione, 28
Date of Opening Meeting, 328
Election of New Members of Council, 86
Electrical Aids for the Deaf, C. M. R. Balbi, 693
Formal Meeting to Receive Liquidators' Report, 55
Meetings at 6 p.m., Votes in Favour, 395
ASSOCIATIONS, INSTITUTIONS & SOCIETIES (*continued*):
INSTITUTION OF ELECTRICAL ENGINEERS (*continued*):
Scholarship Awards, 459
Informal Section:
First Meeting, Engineering Training, Dr. A. Russell, 615
INSTITUTION OF HEATING AND VENTILATING ENGINEERS:
Air Cooling and its Purposes, J. Roger Preston, 13
INSTITUTION, JUNIOR, OF ENGINEERS:
Industrial and Shop Lighting Effects, Lecture and Demonstration, 658
New President, Date of Induction and Address, 484
INSTITUTION OF MECHANICAL ENGINEERS:
Annual Dinner, 677
North-Western Branch:
Annual Dinner, 655
INSTITUTION OF MUNICIPAL AND COUNTY ENGINEERS:
Meeting, Two Days', at Nottingham, Programme, 58
INSTITUTION OF NAVAL ARCHITECTS:
Awards Announcement, 227
Further Scholarship Awards, 484
INSTITUTION OF RAILWAY SIGNAL ENGINEERS:
Elections of Honorary Member, also of First Lady Member, 93
"Proceedings" Issued Twice Yearly, 451
Theory of Interlocking, J. S. Moore, 97
INSTITUTION, ROYAL, OF GREAT BRITAIN:
Juvenile Christmas Lectures by Sir William Bragg, Subjects of, 543, 677
Meetings and Elections, 25, 630
Programme of Lectures Before Easter, 708
INSTITUTION OF WATER ENGINEERS:
Winter Meeting and List of Papers, 615
SOCIETY OF ENGINEERS:
Premium Awards for Papers, 682
SOCIETY OF GLASS TECHNOLOGY:
Titania Glasses Compared with Lime and with Magnesia Glasses, 477
SOCIETY, ROYAL, OF ARTS:
World's Copper Control Largely in One Company's Hands, Sir R. Redmayne, 41
SOCIETY, ROYAL METEOROLOGICAL:
Award of Symons Gold Medal, 705
SOCIETY OF TECHNICAL ENGINEERS:
Mr. Richard Hazleton, 371
SOCIETIES, PHYSICAL AND OPTICAL:
Exhibition, 702
ASWAN Dam, Discharge of Sluices, New Instrument for Measurement, 358
Atlantic Cable, Largest and Fastest Ever Laid, 41
Atom in Collision, Photographed After 21,000 Attempts, 97
Australia, Accelerated Service to Fremantle, 395
Australia, Four New Bridges Across Murray River, 505
Australia, Locks on Murray River, to Cost Ten Millions Sterling, 253
Australian Trade Statistics, 341
Australia's Largest Reciprocating Engine, 669

B

BALTIC to the North Sea, Deepening the Flintraennan Passage in the Oeresund, 423, 451
Barium Sulphate, Enormous Crystal from Mine near Appleby, 423
Basingstoke Canal, Reported Purchase of, 71
Bauxite, Large Deposits Reported in Permsk Province, 281
Belt Conveyor, New Type, 227
Bengal Ropeways Bill Becomes Law, 477
Bengal Scheme for Storm Water Disposal, 451
Birmingham Tramway System Extension, 395
Blast-furnaces—*see* Iron and Steel
Boilers Fired with "Lopulco" Pulverised Fuel, Efficiency Results, 13
Boilers for Use with Refuse Coal, Result of Tests, 97
Bombay Government Regulations for Boiler Attendants, 505
Bombay Government to Spend £6,000,000 on Sea Front Reclamation, 531
Book of the Thornycroft, 599
Boulogne Harbour Improvement, Dredging and Deepening the Inner Part, 311
Brake Operation on Motor Vehicles, Difficulties, and a New Patent, 311
Breaking-up of Scrap Metal, 682
Bricks Made from Gold Mine Dumps, Value of, 125
Bridge Centuries Old at Last Being Destroyed in India, 531
Bridge Foundations, Caisson Position Electrically Ascertained, 227
Bridge with Record Main Span, 125
Bridge, Valuable, at Springfield, Mass., Completely Destroyed by Fire, 395
British Chemical Standards Movement, 253
British Engineering Standards Association:
British Engineering Standards Specifications, Withdrawal from Circulation of B.S. Specification 72—1917, Revision in Progress, 41
British Forestry Commissioners' Extensive Schemes, 41
British Non-ferrous Metals Research Association:
Alloys Used in Die-casting, Investigation of, 13
First Experimental Report, 615, 643

C

CABLE Between United States and France, Said to be World's Largest, 587
Calcutta, King George's Dock, Water Area and Other Dimensions, 125
Canada, Automobile Manufacture in, Statistics, 13
Canada's Greatly Increased Trade, Statistics for Past Year, 367
Canada's Mineral Production Recovery, Statistics, 227, 367
Canada's Production of Gold in 1922, 151
Canada, Striking Growth of Water Power Development, 13
Canadian Great Lakes, Complaints of Excessive Diversion of Water by United States, 97
Canadian Iron Ore Mining, Position of, Government Committee's Report, 311
Canadian Islands of the Arctic Circle, Investigators from Quebec, 71
Canadian Patents Issued, A Record Year, 693
Canadian Westinghouse Company's Works, Factory Extension, 97, 175
Canal to the Baltic Sea, Polish Scheme, 451
Canal, Rochdale, Sale of All its Reservoirs and Water Supplies, 201
Canals under Consideration in Belgium, 71
Carbon Black from Surplus of Natural Gas, 451
Catalogues, British, for Constantinople and Towns in the Interior, 669
Catalogues, British, Lack of, in Canada, 268
Catalogues, British, for Mexico, 253
Catalogues for Turkey, 543
Cement Manufacturing Company in China, 151
Cement from Spent Shale from Scottish Oilfields, 13
Central Steam Heating for Winnipeg, 599
Ceylon River, Extensive Electric Power Capacity, 13
Chemical, Metallurgical and Mining Society, Endowment of Research in South Africa, 227
China, Modern Highway Planned in, 151
Chinese Cruisers to Promote Chinese Trade, 227
Chinese Government Bureau of Economic Information, 13

COAL, COKE AND COLLIERIES:
American Coal Mines, Fatal Accidents in, 643
Anthracite and Bituminous Coal in the United States, State of Reserves, 71
"Application of Stone Dust in Coal Mines," 451
British Coal Output Statistics, 227
Canadian Coal Production, 643
Canadian Collieries, Limited, Results of Boring in the Sable River District, 41
Centrifugal Machines for Drying Coal, 669

EARTH Tremors and Mining on the Rand, 367
Earthquake Action and Popular Misconceptions, J. W. Doty, 531
Egg Preservation, Rapid New Treatment, 587
Einstein and Relativity Theory, Device for Interpretation, 97

ELECTRICAL MATTERS:
American Post Office Lighting to be Reconstituted, 201
Austrian Electrical Industry and Deflation, 587
British Columbia Electric Railway Company, Plans for Great Water Power Development, 41
British India and Japan, Trade in Electrical Apparatus, 175
Central Station Design, Duplication of Equipment and Installation of Safeguards, 97
Circuit Breakers, Automatic Re-closing, History of Three, 151
Cleethorpes Urban Electricity Supply, Proposal to Electricity Commissioners Refused, 643
Concession and Licence Asked for Storage of Water and Supply of Electric Energy, 137
Dental Apparatus Material, Superiority of Electricity over Gas in Japanning, 125
Des Quinze River, Ontario, Sixty Years' Lease of Group of Rapids, 201
Direct Current, Three-wire, System, Dangers of, for Private Use, 97
Electric Furnace Under Construction at Ford Company's Detroit Works, Details of, 71
Electrical Storage Battery Locomotive for Use in Coal Mines, Prize Offered for Best Vehicle, 395
Electricity Commissioners' New Regulations for Overhead Lines, 615
Estonia, Large Power Station Completed at Ellamaa for State Railways and Other Purposes, 505
Experimental Station at Geltow, Details of High-tension Direct-current Machine, 151
Explosion Due to Cracked Insulator, 615
Ford Factory in Ontario and Large Electrical Equipment, 505
French Experiments in Wider Use of Electrically Driven Vehicles, 367
Furnace, the Electro-thermic Accumulator, A Swedish Invention, 693
Fynn-Weichsel Alternating Current Motor, 587
Gas-filled Lamp and Glare Elimination, Advantage of Larger Candle-power, 201
Generating Set, 50,000-Kilowatt, by C. A. Parsons and Co., Ltd. for Commonwealth Edison Company, Details of, 13
Hackney Borough Council and Electric Vehicles for House Refuse Collection, 41
High-tension Transformers, Drying Out, 395
House Wiring for Electricity, Free Installation Advocated in Newport (Mon.), 201
Immunity from Electrical Current, Great Differences in Capacity of Human Beings, 281
Industrial and Shop Lighting Effects, Demonstration Lecture at British Thomson-Houston Company's Rooms, 658
Irish Water Power for Electricity, Demand for Purposes of Agriculture and Rural Industry, 201
King Opens Super-supply Station, 125
Lesser-known Electrical Utilities, James Orr, 615
Low-voltage Release Equipment Advantage, 615
Microscope Work by Electric Lamp, 125

ELECTRICAL MATTERS (*continued*):
Mines in France, Belgium, &c., Great Deficiency in Use of Electric Signalling, 281
Motor at Work Continuously for Twenty-seven Years, 367
Neon Lighting Installation in London, First in Great Britain, 227
New York's Electric Advertising Signs, and Over a Million Lamps, 201
New York Electrical Exhibition, Great Growth in Use of Electricity, 477
Nitrogen Fixation, Electrical Aspect of, P. Bunet, 451
North Wales and South Cheshire Joint Electricity Authority, 395
Poplar's Electricity Finance, 669
Porcelain Insulator Testing and Gases Liberated, 587
Power Station for the British Empire Exhibition, 367, 423
Power Station for Lighting Problems, 587
Pretoria Power-house New Plant, 669
Quebec, Power Plant for Bryson, 423
Russian Power Stations' Restoration, Orders for Electrical Plant, 423
Saskatchewan, Increasing Demand for Electric Light in Yorktown, 437
Saskatchewan, Yorktown, Local Electric Improvement Scheme, 693
South African Large Electric Power Schemes, 341, 423
Southern India River, Conference Between Travancore Durbar and Madras Government on Harnessing Question, 151
Spinning Machines Driven by Electric Motors, 615
Swedish Rural Electrification, 395
Synchronous Converter and Power Factor Correction, 587
Synthetic Grey Iron, Tests for Making, in a Special Electric Furnace, 227
Transmission Line Altered to Obtain Much Increased Energy, Remarkable Achievement, 477
Transmission of Power Systems, Large, Value of Interconnection, 559
United States' Use of Incandescent Lamps Equals that of the Rest of the World, 693
Ventilation and Electrical Apparatus, 643
Voltages, Very High, Laboratory Demonstration, 693
Water-cooling Coils in Transformers, Scale Trouble, 587

EMPIRE Mining and Metallurgical Congress of Societies Interested, Arranged for the British Empire Exhibition, 367
Employment Exchanges' Statistics, 477
Esquimalt Dry Dock, Large Contract for Electrical Pumping Machinery, 281

EXHIBITIONS:
British Empire Exhibition:
Electric Power Station for Light and Driving, also as an Exhibit, 367, 423
Empire Mining and Metallurgical Congress Arranged, 367, 562
Hours of Opening and Closing, 622
World Power Conference, 311, 622
Brussels Commercial Fair, The Fifth, Growth of, 693
Leipzig Fair, Ill Success of, 253
Physical and Optical Societies Exhibition, 702
Public Works, Roads and Transport Exhibition, 86, 112
Royal Agricultural Show, Awards at, 13
Shipping and Engineering Exhibition, 291
Special Conference Inaugurated by Institution of Automobile Engineers, Programme, 291
Tercentenary Jubilee Exhibition at Gothenburg, 281
